INTRODUCTION

WHAT IS A BIG KAHUNA HUT?

SIMPLY PUT. THE BEST AVAILABLE.

When you hire from Big Kahuna you have the knowledge and comfort that comes from dealing with a supplier that has over a decade of experience in the Street Food Scene.

Designed for on the move, professional event organisers, our pop-up event stands can be individually assembled on-site, without tools in around 5 minutes.

Once erected these then form a very solid, durable and wind-proof unit, ideal for the demanding Street Food vendors.

Safety Features and Benefits

- Self-weighted and extremely wind resistant
- Solid base and counter areas supporting all types of commercial cooking equipment
- Safety use of equipment and accessories at all times
- Natural barrier between the vendor and the public

HOW WE CAN HELP YOU

A TAILOR MADE EVENTS SOLUTION FOR ALL STREET VENDORS MARKET STALLS, GAZEBOS, FOOD STALLS AND CHALETs

■ ADVICE

With over a decade of personal experience in the Street Food Scene, we are well qualified to advise on planning, running and maintaining the professional vendors requirements.

In addition, we are able to recommend and support the right equipment too.

■ BRANDING AND MARKETING

We can also provide marketing advice as well as designing and supplying banners, menu boards, signage and a wide range of promotional materials to complement your existing branding.

■ SELF ASSEMBLY

Smaller multiple units can be supplied and delivered nationally by our courier service, all ready for individual self-assembly in a matter of minutes.

Supplied in convenient pallet boxes and ready to go, simply place the items back in the pallet boxes after use for collection once your event has finished.

■ FULL INSTALLATION

Alternatively, hire our events team to manage the whole process for you with delivery, installation and signage application. After the event we will arrange collection and handle all transportation.

FOOD STALL SAFETY

It is imperative that food stalls are set up professionally and correctly, to avoid any danger to you and your customers. With a Kahuna pop-up kitchen all items such as gas, electric, and charcoal are taken care of ensuring the safety of your clients and their customers at a busy catering event.

With solid fitted counters and reliable work surfaces, these provide a natural windbreak and help to eliminate rain and to stop tables and other equipment from blowing over.

With many years of experience our clients love the safety and sturdiness of our range and the safety features, built in as standard.

WESTFIELD LONDON – CASE STUDY

**WESTFIELD LONDON HAVE BEEN HIRING
OUR STALLS ON AN ANNUAL BASIS FOR
MANY YEARS**

In 2019 alone we delivered and installed:

- 20 x 3 x 3 metre complete Food Stalls complete with front fitted counters for each individual vendor
- 13 x 2.4 x 1.8 metre Kahuna Huts, used for non-food items such as jewellery and perfume
- Each stall was individually branded in client's corporate branding
- All stalls were displayed on a back-to-back system and we added a convenient centre reservation, ideal as a stock-holding area and an easy refuse collection point, enabling the site to be kept visibly clean and tidy at all times.

STALLS IN FULL SWING

LONDON SEAFOOD FESTIVAL

With all kahuna Huts being flat-packed this enables all types of events and locations to be catered for.

Our clients have used our ranges in numerous and unusually tricky venues such as at the garden area at top of an office block, high level multi-floored hotels and of course in any conference room setting.
